

PROTECT YOUR MOST VALUABLE ASSETS.

Custom guarding solutions to keep your employees safe.

The NEFF structural design team can work with you to develop a custom guarding solution that allows your facility to operate at full capacity while keeping your employees and visitors safe.

The versatility and durability of 80/20 make it the ideal solution to protect your employees from dangerous machines, robots, materials.....and even each other.

NEFF can help you design a guarding solution for these critical areas:

- Assembly Stations
- Parts Cage
- Shipping & Receiving
- Security Desk
- Reception
- Cafeteria
